RUNS ON: WINDOWS95/98/ME/NT/2000/XP/2003.

pdfGDI ...

Broadgun Software Australia have just released their much anticipated pdfGDI software which exponentially reduces pdf development hours for programmers!

pdfGDI Features and Benefits:

- No new API to learn.
- Very easy to port existing printing code to produce a PDF file.
- No printer drivers are required.
- Almost entire Windows GDI API is covered.
- TrueType font embedding is supported.
- Built on popular and robust [pdfMachine](#) technology.
- High quality PDF text and graphics.

pdfGDI costs US\$1995 per license.

The license allows royalty free distribution of pdfGDI in a single application.
